

DM20 MANUAL

IMPORTANT SAFETY INSTRUCTIONS

- Read these instructions
- Keep this instruction manual
- Pay close attention to all the warnings
- Follow all instructions
- Do not use near water
- Do not, under any circumstance, expose to any dripping or splashing liquid
- Do not place items with liquids (such as vases, glasses or bottles of liquid) on top of the amp
- Clean only with a dry cloth
- Do not block any ventilation openings
- Install in accordance with the manufacturer's instructions
- Do not install near anything that produces heat. This includes things such as radiators, heaters, stoves and other amplifiers
- Do not modify or change the AC plug. A grounding type plug has two blades and a third grounding prong. The third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet
- Do not allow the power cable to be bent, pinched, walked on, or put in any such place where damage may occur
- Unplug the amplifier during lightning storms or when unused for long periods of time
- Contact the manufacturer or authorized repair technician when servicing is needed. Servicing may be required when the amplifier has been damaged or is malfunctioning.

- Excessive sound pressure from earphones and headphones can cause hearing loss
- No naked flame sources, such as candles should be placed on or near the apparatus
- If needed the lift amplifier with care. Use a trolley as needed, but caution is advised to prevent the trolley tipping over

FEATURES

The Artist DM20 is a compact amplifier featuring a dual speaker design with 5.5" and 1.5" speakers. The DM20 speakers are designed for ideal response to electric drum kit frequencies, and are also compatible with any keyboard, synthesiser, electric piano or even acoustic guitar. Core DSP technology means this compact amp always performs at its best and will outperform many similar amps.
