

Thank you for purchasing our product, please read these instructions carefully before using it.

WARNING

Do not use this unit in:

- Direct sunlight
 - Extreme temperature or humidity
 - Excessively dusty or dirty locations
 - Locations of excessive vibration
 - Close proximity to magnetic fields
- Doing so may result in malfunction.

Power supply

Use a 9-volt DC adapter with negative (-) pole in the centre and positive (+) pole on outer connector.

Unplug this unit during lightning storms or when unused for long periods of time

Interference with other electrical devices

This unit may experience electrical interference when operated in close proximity to radios and televisions. Best to operate this unit away from such electrical equipment.

Handling

To avoid breakage, do not apply excessive force to the switches or controls.

Care

If the exterior becomes dirty, wipe it with a clean, dry cloth. Do not use liquid cleaners such as benzene, thinner, cleaning compounds or flammable polishes.

Keeping foreign matter out of your equipment

If liquid gets into the equipment, it could cause a breakdown, fire, or electrical shock.

Please keep this unit well clear of any liquid.

Be careful not to let metal objects get into the equipment. If something does slip into the equipment, unplug the AC adapter from the wall outlet and contact Artist Guitars for assistance.

Opening the unit may result in voiding your warranty.

Regarding disposal

Please consider the environment and do not dispose of this product along with your household waste. Check with your local council on the best method for waste disposal.

Important notice to customers

This product has been manufactured according to strict specifications and voltage requirements that are applicable to the country in which the product is sold. If you have purchased this product from a seller other than Artist Guitars, you must verify that this product is intended to be used in the country in which you reside.

WARNING:

Use of this product in any country other than that for which it is intended could be dangerous and may void the manufacturer's warranty. Please retain your receipt as proof of purchase.

PANEL INSTRUCTION

SPECIFICATIONS

Input Impedance: 1M Ohm

Output Impedance: 100 Ohm

Running Current: 35mA

Power: DC 9V adapter 

Dimension: 73(L)*43(W)*50(H)mm

Weight: 220 g
